July 20, 2003

MEDIA ADVISORY

2,300-mile Solar Car Race Coming to Kingman, Ariz.

- What:** The American Solar Challenge (ASC), a 2,300-mile solar car race from Chicago to the Los Angeles area along historic Route 66, July 13-23. The American Solar Challenge is an educational event in which college teams and clubs from the U.S. and Canada compete to build and race solar-powered cars across the country. Twenty solar-powered cars are participating in the race. The car with the fastest cumulative time will win the Challenge, which is the longest solar car race in the world.
- When:** Solar cars are expected to pass through a checkpoint in Kingman **July 21 and 22**. The fastest cars could reach the checkpoint as early as 10 a.m. July 21. Cars are required to stop for 30 minutes. Checkpoints are normally open from 8 a.m. to 6:30 p.m. Please call contacts above for specific times that may differ.
- Where:** The Kingman checkpoint is at the **Powerhouse Visitor Center, 120 W. Andy Devine**.
- How:** Media are encouraged to cover the race at the checkpoint location where racecar drivers and other team members will be available for interviews. Media team representatives and race officials also will be at the checkpoint. Daily race results, photos and other information will be posted at www.americansolarchallenge.org.

###

The race is sponsored by the U.S. Department of Energy and its National Renewable Energy Laboratory (NREL), BP Solar and EDS
ASC is a Formula Sun Event • P.O. Box 30 • Freeman, Mo. 64746
