Participating Teams FSGP 2011

Teams,

Regulation 3.8 requires all teams to provide proof of insurance to participate in this summer's events. The requirements deal directly with liability insurance for vehicles and general public with varying limits. This document is to serve as general instruction for this requirement.

Limits for bodily injury of not less than US\$1,000,000 for each person and US\$1,000,000 for each occurrence is required.

Limits for property damage of not less than US\$1,000,000 for each accident and US\$1,000,000 in the aggregate is required.

This applies for each vehicle registered as part of a team's caravan (including the solar car) as well as for general public liability.

If you are using an independent insurance provider please have the provider send a copy of the insurance certificate to the Innovators Educational Foundation at the address above. The certificate should show that the insurance would be in force during the period of the race (May 2, 2011 – May 7, 2011). Contact information for the insurance company should be provided allowing foundation officials to make contact if deemed necessary.

If your college/university is self-insured then a letter to that effect should be sent to the Innovators Educational Foundation at the address above indicating that the self-insurance covers the limits stated specifically during the time of the event (May 2, 2011 – May 7, 2011). This letter should be on your institution's letterhead and signed by an officer of your college/university that can be contacted concerning insurance matters. Contact information for the self-insurance program at your institution should be provided allowing foundation officials to make contact if deemed necessary.

Questions may be sent to ief@americansolarchallenge.org attention Paul Hirtz.

Thank you,
Innovators Educational Foundation
