Proof of Insurance Instructions for teams participating in ASC/FSGP events

The Team Participation Agreement and Event Regulations stipulate for all teams to provide proof of insurance in order to participate in Innovators Educational Foundation (IEF) events including the American Solar Challenge (ASC) and Formula Sun Grand Prix (FSGP). This requirement deals directly with liability insurance for vehicles and the general public with varying limits. This document is to serve as general instructions for fulfilling the insurance requirements.

Limits for bodily injury of not less than US\$1,000,000 for each person and US\$1,000,000 for each occurrence is required.

Limits for property damage of not less than US\$1,000,000 for each accident and US\$1,000,000 in the aggregate is required.

This applies for each vehicle registered as part of a team's caravan (auto liability) as well as for general public liability (including the solar car).

If you are using an independent insurance provider please have the provider send a copy of the insurance certificate to the Innovators Educational Foundation at the address above. The certificate should show that the insurance would be in force during the period of the competition (note specific dates for the event you are registering) and show that Innovators Educational Foundation is included as an additional insured on the insurance. Contact information for the insurance company should be provided allowing foundation officials to make contact if deemed necessary.

If your college/university is self-insured then a letter to that effect should be sent to the Innovators Educational Foundation at the address above indicating that the self-insurance covers the limits stated specifically during the time of the event (note specific dates for the event you are registering). This letter should be on your institution's letterhead and signed by an officer of your college/university that can be contacted concerning insurance matters. Contact information for the self-insurance program at your institution should be provided allowing foundation officials to make contact if deemed necessary.

Questions may be sent to ief@americansolarchallenge.org.

Thanks,
Innovators Educational Foundation
